

## BOOSTER CLUB ELECTS OFFICERS

Permanent Organization Effected Saturday Night at City Hall.

## MUCH ENTHUSIASM MANIFESTED

Saturday evening at 7:30 a number of citizens met at the City Hall for the purpose of effecting a permanent organization of the Commercial Club of this city. The meeting was called to order by F. B. Arnold, cashier of the Peoples Bank, who has displayed so much civic pride in getting this organization started, with the help of other prominent home-loving citizens. The report of the Committee on Constitution and By-laws was read by Dr. C. B. Johnson and adopted by sections, with a few minor changes. The election of officers to serve for six months was then held, with the following results: F. B. Arnold, president; Dr. C. B. Johnson, vice-president; H. D. Coward, secretary; Prof. C. E. Dudley, assistant-secretary; W. L. Phillips, treasurer. The appointment of committees was deferred until the next meeting night, which will be Thursday night, Oct. 7th. The first and third Thursday nights in each month are the regular meeting nights. Several interesting and enthusiastic talks were made by Messrs. Arnold, Johnson, Dudley, Coward, Phillips, Smith and others.

Too much cannot be said in praise of this organization, which has at heart not only the best good of our fair city, but also of each individual citizen, regardless of age or color. Everyone should be present at the next meeting and enroll their names as members. Until the first of November there will be no membership fee required. After that time a fee of 50c will be required. A monthly fee of 25c is all that is required in a money line from the membership. The ladies of the city will join in the endeavor to improve our town and they are cordially invited to be present at the next meeting.

The object of this association shall be to secure the co-operation of all classes of people in the community, representing the real estate, banking, commercial, manufacturing and professional interests, not to supersede or antagonize any existing business organizations, but by consultation and united effort to work for the common good of all in matters touching the general welfare of the city of Earlington; to secure the location of factories and other business enterprises in the city; to promote commercial progress and increase trade and industry; to acquire and disseminate valuable commercial and economic information; to increase acquaintance and harmony among the business and professional men and citizens of the city and county, using such means as may be best calculated to protect the interests and rights of the members of this association; and to forward the commercial development of the surrounding territory.

The Organization Committee consists of the following well-known hustlers, each of whom is expected to bring in not less than five members for the next meeting.

The health of the 225 men have been fine and no sickness reported and the rations is the best that has ever been issued to the soldiers and everyone seems to be satisfied.

## JOIN THE EARLINGTON BOOSTERS CLUB

And Help Push This Town Along

What this town needs is a good strong push to the front—a push with everybody doing the pushing, and every push pregnant with results.

But how can such be accomplished?

Easy enough, brother. Come to the town Hall Thursday night week and join the Boosters Club.

There is no such thing as "can't" when you really want to do a thing—provided, of course, you are a practical man and not dreaming of wild impossibilities.

But a steady and healthy forward movement for you town is not only possible, but is easy of accomplishment. When The People Get Together And Work Together.

If left for one or two men to do, it will not be done, and the town will stagger along in the same old rut for years to come.

But if every citizen will just realize that advancement and improvement means More Money For Him, and will go to work with his neighbor to make that advancement and improvement a reality, It Will Be Done And You Will Get Out Of The Rut And Onto The High Ground Of Increased Prosperity.

You need a civic organization composed of something besides dry bones—an organization with life in it and red blood in its members—an organization that will do something besides smoke cigars and swap jokes—one that will get right down to brass tacks And Do Something and Keep On Doing More Somethings.

People who have been emulating the mole and pulling in the wrong direction should wake up for once in their lives and compel themselves to realize that property in or adjacent to a Prosperous and Growing town is far more valuable than property in a Dead community.

Throw off that wild and frantic fear of taxation and remember that when a few cents are added to your taxes the value of holdings is increased by many dollars.

Try to imbihe the idea that this is an age of Progress and Accomplishment and Big Things.

Keep in mind the fact that the Loyal Citizen looks a few inches beyond his own pocketbook of today and considers the welfare of the Whole Community, realizing to the fullest extent that what is of benefit to All Of The People must of necessity be of Like Benefit To Him.

Stop listening to the croaker who continually paints the pictures of ruin and overburdened taxation. As long as you give heed to him his tongue will wag, and every wag means a job at the future of you town.

If you can't convert him to the sane ways of progressiveness, just forget him. Let him go out in the woods and rave to his heart's content. The birds may hear him, but they will give him a wine berth. Be as wise as the birds.

Get your people together and form this civic organization, with every progressive man and woman in town as members.

Then let each one give Careful Thought to the natural advantages of the town, what it needs, what is best for it, what New Industries would thrive in your midst and How Best To Get

## HALT FURLONGS ON EVE OF STRIKE

Forty Thousand Garment Workers May go Out in Chicago Monday

## WANT A 48 HOUR WEEK

Chicago, Ill., Sept. 25.—Chief of Police Healy late today ordered all police furlongs cancelled and summoned his chief assistants to lay plans for emergencies in anticipation of a strike of 40,000 garment workers on Monday.

Leaders of the garment workers, who are members of the Amalgamated Clothing Workers of Chicago, tonight declared that a strike was inevitable and would be called at noon Monday. Labor leaders contended that the strike, if called, would affect all members of the organization in the United States.

The demand of the garment workers include the adoption of a 48-hour week, observance without deduction in pay of all legal holidays, overtime pay at the rate of time and a half, recognition of the union and a level increase of 25 percent in all wages. A minimum wage scale for week workers has been submitted to employers.

Chief Healy said tonight that he had received information from authoritative sources that there would be a walk-out Monday. The time limit of the ultimatum sent clothing manufacturers by the unions, together agree on a conference or submit the workers' demands to arbitration, expires then.

Them, and what the people of the town themselves can do toward Developing Industries Of Their Own.

If everybody writes out his own ideas, and you all assemble later and compare notes, the chances are ten to one Some One among your number will hit upon the Right Thing for a beginning.

Then go to work with one mind and Work Until You Get That One Thing.

See it well established and comfortably started on the road to prosperity, and then Compare Notes Again and decide on The Next Best Industry for your town and Go After It Until You Get It. Do one thing at a time. Too many irons spoil the fire, and as a result they all get cold and can not be used.

The first accomplishment will make you eager for the next, and each successive one will sharpen your intellect and whet your desire for greater development.

The future of your town is up to you and others of your class. You can make it or break it, as you choose.—But As The Town Is, So Will You Be.

**Biliousness and Constipation**  
It is certainly surprising that any woman will endure the miserable feelings caused by biliousness and constipation, when relief is so easily had and at so little expense. Mrs. Chas. Peck, Gates, N. Y., writes: "About a year ago I used two bottles of Chamberlain's Tablets and they cured me of biliousness and constipation." Obtainable everywhere.

## COLT SHOW A GREAT SUCCESS

Live Stock Exhibited at Mortons Gap Last Saturday.

## LARGE NUMBER ATTENDED

The colt show given by the Hopkins County Live Stock Association of Mortons Gap last Saturday was a grand success. There was on the ground something like one thousand people and the finest string of colts perhaps that has ever been gotten together in this or any other county. The rivalry for premiums was strong and resulted in bitter contests and it was a very hard matter for the judges to select the winners. Over one hundred dollars in premiums were given away. The crowd began to gather early in the morning and by noon the town was full of people. The Mortons Gap band furnished music throughout the day and the large crowd enjoyed every minute of the stay. Hon. Ben T. Robinson was master of ceremonies. The welcome address was made by Rev. C. D. Cole which was enjoyed very much. The response was made by Hon. Lee Gibson.

In the afternoon the crowd assembled in the opera house to hear a talk delivered by Hon. Lee Gibson on stock raising, and the different way to cultivate the soil and in the discussion he paid a high tribute to the county farm demonstration work which was going on in the county and advised all farmers to take advantage of it. He said the government and county had the demonstration here and was paying his expenses for no other purpose but to assist them all and it was their duty to call him when they could use him. Mr. Gibson made one of the best talks ever heard on the subject assigned.

## BUSY TERM OF COURT STARTS

Last Term of a Long and Faithful Service for Judge Flen Gordon

## INSTRUCTIONS TO GRAND JURY

The fall term of the Hopkins Circuit Court convened Monday morning, with an unusually heavy docket for a fall term, the first eight days being set aside for the trial of Commonwealth cases, this docket being unusually large. The Common Law Trial docket, the Appearance Common Law docket and Equity docket are very heavy.

The grand jury for the present term is composed of the following gentlemen: T. B. Davis, V. K. Ridd, J. D. Moore, L. Y. Buchanan, L. H. Davis, T. M. Browning, J. M. Weldon, P. E. Wilson, J. M. O'Bryan, G. B. Harrelson, W. P. Tippet and J. W. Peyton.

The petit jurors will be selected this morning and the trials of the various cases will be entered into. Judge Gordon devoted an hour Monday morning to instructions to the grand jury, which were very strong. He dwelt at some length on all forms of lawlessness, and when the subject of the various outrages committed in the county and charged to the "Possum Hunters," "Night riders and "Regulators" was reached, he urged a thorough investigation of these crimes. Judge Gordon stated that the law-abiding people of this section of the state were tired of these outrages and that "the time was fast coming when the courts would turn in convictions so speedily that the doors of the penitentiary would have to open mightily fast to permit them to enter."

Judge Gordon, who is presiding over his final term of court, his term expiring at the end of the present term after fourteen years of faithful service, reviewed the work of the past years, and stated that he could step down and out on January 1 with greater satisfaction if he could leave the affairs of the county in a peaceful condition. He extended his "sympathy and his co-operation" to his successor, "whoever he may be," and dwelt upon the responsibilities of the Circuit Judge, "which is a man's job, and not fully appreciated by the general public."

## ROBERTS WINNER OF 25-MILE AUTO RACE

Driving Ford Car Makes Distance in :36-45 at West Side Track

Driving a consistent race from start to finish Ray Roberts, Mt. Carmel, Ill., in a Ford, won the 25-mile auto race at the West Side track at Louisville Saturday afternoon from a field of nine starters. Roberts' time for the distance was 36 minutes and 45 seconds. Harvey Goodhart, Mt. Carmel, was second in :37-24. Otto Smith, Mt. Carmel, third :38-08; Jack Lanhan, fourth :38-52.

The local track was in good condition at the start, but the cars soon cut ridges at the turns and stirred up a regular cloud of dust that made driving dangerous. In spite of the speed and dust there were no accidents, but Promoter Barrett called off the second race because of the condition of the track.

Roberts was awarded a cash prize of \$200. Goodhart received \$100, Smith \$75 and Lanhan \$25. Alva Ragon and Ed Overton acted as judges and timers of the contest. About 1,000 people witnessed the race. Local entrants were O. H. Meidreich and G. E. Brown.

## BIG CIRCUS

### Coming This Way Soon

The Barnum and Bailey Greatest Show on Earth will exhibit at Madisonville on Saturday, Oct. 9, and the good news is being heralded everywhere by the many agents of this, the highest and foremost amusement institution of the world. The Barnum and Bailey Circus has always been the largest that travels and this season the management has found it necessary to add many more cars to their trains in order to provide for the great equipment. It requires 85 double length railroad cars to transport the big show, 1280 people are employed, there are 700 horses, 40 elephants and a menagerie of 110 cages, 480 world famed artists take part in the greatest circus program this world has ever known.

A fitting introduction to the wonderful performance this year, is the presentation of the new, spectacular pageant, "Lalla Rookh," in which nearly 1000 characters take part.

In the circus proper, which is presented in three rings, four stages, the hippodrome and in the dome of the dome of the largest tent ever erected, 480 performers from every nation in the world take part and present a vast array of foreign features entirely new to America. A wonderful trained animal exhibition is given by the Marvellous War Elephants, Pallenberg's Wonder Bears, Madam Bradna's Angel Horses, Thaler's Dogs, Ponies and Monkeys, and the Barnum and Bailey Statue Horses.

Great interest is already being shown in this neighborhood and great crowds will no doubt go to Madisonville Saturday, Oct. 9, for the biggest and most enjoyable holiday of the year. Everyone is advised to get an early start in order to be there in time for the parade which starts promptly at 10 A. M., and which is said to eclipse anything of its kind ever before attempted in the history of circus business.

## It Was a Dream

We had a sweet, sweet dream the other night. We dreamed that every fellow who owed the Bee a dollar on subscription walked up and paid it and also paid for one year in advance. We were beginning to figure just how much of that billion dollar loan we could take up when a large black bug with fourteen legs began to fox trot on our pale dome of thought and brought us back to the stern realities of life. Just why is a dream, anyway?

# Sick Women Attention

Is it possible there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, which proves beyond contradiction that this grand old medicine has relieved more suffering among women than any other one medicine in the world?

We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine for women—and every year we publish many new testimonials, all genuine and true. Here are three never before published:

#### From Mrs. S. T. Richmond, Providence, R. I.

PROVIDENCE, R. I.—"For the benefit of women who suffer as I have done I wish to state what Lydia E. Pinkham's Vegetable Compound has done for me. I did some heavy lifting and the doctor said it caused a displacement. I have always been weak and I overworked after my baby was born and inflammation set in, then nervous prostration, from which I did not recover until I had taken Lydia E. Pinkham's Vegetable Compound. The Compound is my best friend and when I hear of a woman with troubles like mine I try to induce her to take your medicine."—Mrs. S. T. RICHMOND, 84 Progress Avenue, Providence, R. I.

#### From Mrs. Maria Irwin, Peru, N.Y.

PERU, N.Y.—"Before I took Lydia E. Pinkham's Vegetable Compound I was very irregular and had much pain. I had lost three children, and felt worn out all the time. This splendid medicine helped me as nothing else had done, and I am thankful every day that I took it."—Mrs. MARIA IRWIN, R.F.D. 1, Peru, N.Y.

#### From Mrs. Jane D. Duncan, W. Quincy, Mass.

SOUTH QUINCY, MASS.—"The doctor said that I had organic trouble and he doctored me for a long time and I did not get any relief. I saw Lydia E. Pinkham's Vegetable Compound advertised and I tried it and found relief before I had finished the first bottle. I continued taking it all through middle life and am now a strong, healthy woman and earn my own living."—Mrs. JANE D. DUNCAN, Forest Avenue, West Quincy, Mass.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

### A GREAT SUCCESS

Sunday School at the M. E. Church, South, was a very great success, which is attested by the attendance report of 288. The preceding Sunday morning a committee, consisting of Miss Margaret Mitchell and Messrs. Ralph Dudley and Ernest Newton, was appointed to interest the visiting soldier boys and induce them to come to Sunday School. How well this committee did its work is best known by those who attended Sunday School and saw over fifty of the gentlemanly visitors in uniform present, which was very inspiring to all. Each one of them identified himself with some class. This speaks well for these boys and indicates the class of visiting citizens we have in our midst. We wish to make them feel welcome in our little city. At the conclusion of Sunday School Mr. O'ry, a Louisville lawyer, in a very interesting talk, expressed to the Sunday School the very great appreciation of himself and comrades for the interest and hospitality shown them, with the assurance that they had received much inspiration and been done much good. We extend to them each one a welcome to our midst any time and assure them the impression here made has been the very best.

"When I began taking this medicine I was in great pain and feeling terribly sick, due to an attack of summer complaint. After taking a dose of it I had not long to wait for relief, as it benefited me almost immediately." Obtainable everywhere.

### Crowding Out the Small Merchants

A great economic question is going to be brought squarely before the American people within the next few months, and upon the determination of the issue raised by the so-called Stevens Bill, pending in Congress, depends in a very large measure the fate of the small dealer, and especially those in the smaller towns, in the unequal struggle that they are waging for existence against the great city department stores and the mail order houses. Every person who has kept his eyes open must have observed that for some reason the big city merchants have been gaining ground, while the tradesmen in the interior have found the struggle growing constantly harder. The records of postoffice and express money order issues, and bank drafts purchased, clearly show that great sums of money that should be used in trading at home, are going to the mail order houses in the large cities. And the department stores in the great centers are monopolizing the trade, and the little stores are becoming fewer and poorer. This condition is attributed to "cut-throat competition," or price cutting, and from every part of the country there has come a demand for the enactment of a federal statute that will enable manufacturers of staple articles to fix a price on their goods and compel the retailing at a standard figure, no matter where the goods are sold. The Federal Trade Commission is working in this direction, and the indications are that there is bad weather ahead for the handful of city interests that have been driving out the smaller dealers, and growing opulent and arrogant at the expense of the country merchants.

## Forest Fires

The Greatest Destructive Agency  
to the Forests of the State

**F**OREST fires undoubtedly are one of the greatest destructive agencies to the forests and property of the state. It is estimated that from 1911 to 1914 the annual loss from forest fires was \$330,000 each year and that there were annually 175,000 acres burned over. A study of the forest fire situation by the state forester since 1913 has shown that over 90 per cent of the known causes of fires reported to his office were due to carelessness and that they

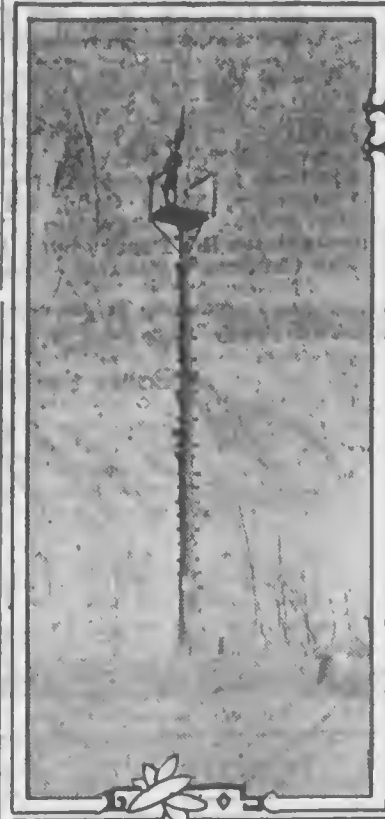

a time when winds are not blowing and when the ground is not so dry that fire would spread in every direction from the area to be cleared. Also a little care in clearing the space outside the area to be burned over would go a long way in preventing the spread of fire. In the fall the hunters do a large amount of damage and 'possum hunting, burning down trees to

[This is the standard type of forest fire lookout towers that are being constructed over the eastern United States. It is possible to overlook the country within a radius of twenty miles from one of these stations.]

could have been prevented by reasonable diligence on the part of the individual. The two chief causes of forest fires are burning of brush in the spring and hunting in the fall. It is easy to see that with a little care both of these causes could be eliminated. Brush could very easily be burned at

AN INEXPENSIVE LOOKOUT TOWER.

[This tower was built on the divide between Kentucky and Virginia, and considering its small cost gave very good satisfaction during the fire season in the spring of 1915.]

obtain these animals, worth a few cents, and the result is that timber worth several thousand dollars is destroyed. Bee hunters also set fire to the trees to get the honey, and boys and other individuals set fire to the leaves on the ground to burn them off in order that they can easily find the nuts. Fires from these causes do a large amount of damage each year, and a little care and thoughtfulness would prevent them altogether.

## Erosion Caused by Cutting Away Forests at Headwaters of Streams

A large portion of this farm was washed away in a freshet. The farm formerly came to the present edge of the stream.

## An Upland Forest

The forest fires have been kept out of this area, and the timber is in first class condition. Defects due to forest fires reduce the value of the timber products as high as 50 per cent. Good trails make the protection of the timber an easy matter.

## Buy It Now

There is 40,000,000 farm population in the United States. The 1914 crop is worth \$9,872,936,000. If only \$10 were spent for each person on the farm now, instead of waiting, it would put \$400,000,000 into circulation and give employment to thousands whose families are suffering where factories are idle.

Mayfield, Ky., Sept. 24.—On account of bedbugs in the library of the High School building to such an enormous extent, school has closed for a few days to give time to get rid of them.
